Summary

- Diligent student who adapts to new situations and skills with ease.
- Possesses strong interpersonal skills and a desire for a career in wastewater analysis and management.
- One year laboratory research relating to DNA damage by prosthetic ion shedding.

Education

Ph.D. in Environmental Toxicology

University of California, Riverside

Anticipated Graduation, June 2018

Bachelor of Science in Environmental Biology

Minor in Chemistry

California State Polytechnic University, Pomona

Anticipated Graduation June, 2013

- 3.95 GPA
- Course Work:
Water Pollution, Organic Chemistry, Biochemistry, Molecular Biology, Radiation Biology
- Dean's List] Academic Achievement Award
- [President's Honor List] Academic Achievement Award

Research Experience

- Conducted research under guidance of Dr. Steve Alas in the field of molecular biology. Topic "DNA Damage in Human T-cells by Human Prosthetic Ion Shedding and Debris Particles"
- Presented findings at 2012 Cal Poly Pomona McNair Scholars Program Summer Symposium
- Presented findings at 2012 Southern California Conference for Undergraduate Research (SCCUR)
- Presented finding at 25th Annual CSU Biotechnology Symposium (CSUPERB)

Professional Association

- Member of Pre-Parm Society Club
- Member of McNair Scholars

Skills

- Comet Assay, Flowcytometry, Erdas Imaging, Mastro for Windows, Microsoft Word, Excel, PowerPoint, Photoshop, Peachtree
- Fluent in Mandarin Chinese

Work Experience

Purchasing

HYS Group

03/2002 - 04/2004

Chino, California

- Managed projects and served as primary liaison between client and suppliers to ensure clarity of goals and quality and adherence to deadlines.
- Worked closely with company executives to identify new business
- Calculated, prepared, and issued bills, invoices and account statements according to established procedures.

Customer Service

ACI Guangzhou

03/1999 - 12/2000

Guangzhou, China

- Planned and executed trade shows
- Developed highly empathetic client relationships and earned reputation for exceeding sales goals.
- Attended local, regional and national trade shows for product development training as defined by territory needs.
