The Department of Mechanical Engineering (ME) at the University of California, Riverside (UCR) is home to a robust research program with nearly $8 million in annual expenditures and is ranked in the top quartile by the National Research Council. The department has 27 faculty members who include such distinguished leaders as the dean of the Marlan and Rosemary Bourns College of Engineering, a member of the National Academy of Engineering in Mexico, 13 Fellows of professional societies, an Honorary AIME Member, and nine NSF CAREER awardees.

ME is part of the Marlan and Rosemary Bourns College of Engineering, a well-established, rapidly growing college of engineering at the University of California, Riverside. Ranked No. 38 among public engineering colleges by U.S. News and World Report, BCOE has 129 faculty members, more than 2,500 undergraduates, 900 graduate students, and more than $39 million in annual research expenditures. The college is home to five departments, two college-wide interdepartmental programs and 10 research centers.

UC Riverside is a world-class research university with an exceptionally diverse undergraduate student body. The campus is designated among the country’s top five Hispanic-serving public universities.

DEGREES OFFERED

B.S., M.S., and Ph.D. in Mechanical Engineering
B.S., M.S., and Ph.D. in Materials Science and Engineering (Interdisciplinary)
